

Comply360.AI

Code Compliance, Reimagined with AI

Optteamix | Your AI-Powered Compliance Innovation Partner

www.optteamix.com

Why Manual Compliance Can't Keep Up in Today's Complex World

Traditional compliance practices are often reactive, manual in nature, and risky, which slows down the time required to implement changes while exposing organizations to regulatory risk:

| | |
|---|---|
|  Manual & Error-Prone Process |  Lack of Traceability |
| Compliance reviews often depend on collaboration between legal and development teams, which can lead to mistakes | Mapping code to specific rules is inconsistent and time-consuming. |
|  Scalability Challenges |  Regulatory Pressure |
| Manual audits and reviews can't keep pace with growing codebases. | Constantly evolving data and security regulations demand faster compliance validation. |

Introducing Comply360.AI

Your AI-Powered Compliance Co-Pilot

Comply360.AI by Optteamix automates regulatory compliance analysis across codebases and documents, accurately detecting violations and recommending fixes, enabling technology teams to build with confidence.

Two Agentic Models Working in Synergy

At the heart of Comply360.AI are two synergistic AI engines that transform static rule-checking into dynamic, line-level intelligence, driving precision, speed, and continuous compliance across your codebase.

Detection Engine

LLM-powered violation detection using GDPR, HIPAA, or other laws/regulations and custom rule sets

Line-by-line scanning with contextual understanding and semantic rule-to-code mapping

Multi-language support (Java, JavaScript, .NET, Python, JRules, and more)

Remediation Engine

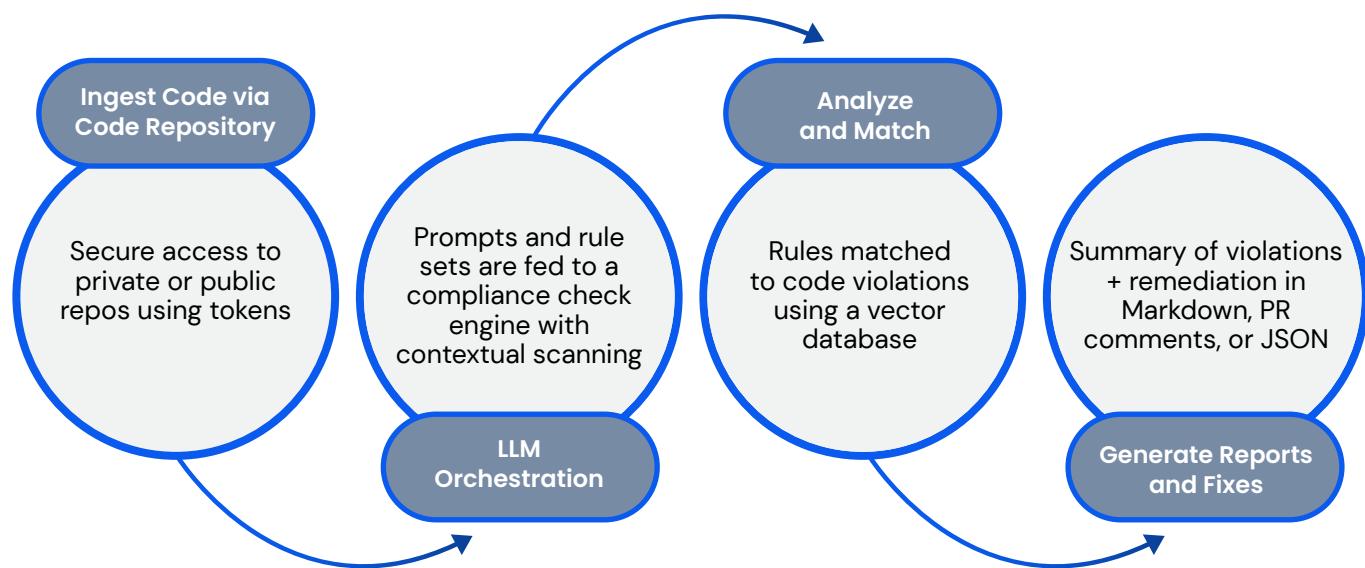

Actionable fix suggestions with exact line reference

Multi-format outputs: PR comments, Markdown, JSON

Human-AI feedback loop ensures validation and precision

Comply360.AI in Action

Here's how Comply360.AI utilizes cognitive automation and Agentic AI models to transform compliance into a fast and frictionless pipeline, from code ingestion to intelligent remediation.

Real Impact. Faster Modernization. Smarter Outcomes.

Comply360.AI delivers enterprise-grade risk reduction and tangible business benefits by automating and accelerating compliance across the development lifecycle. These results speak for themselves.

Faster Verification

From weeks to hours with AI-powered Analysis

Zero Legal Overhead

Legal expertise is not required from developers

40% to 60% Faster Audit Turnaround

Faster turnaround on security & privacy audits

Minimal Manual Errors

AI-powered precision you can trust

Continuous Integration

Shift-left governance built-in

Start Your Compliance Transformation. Now!

Optteamix LLC (**Optteamix**) is an AI-powered technology services company that helps businesses unlock their full potential through intelligent, human-centric solutions. Our core expertise encompasses Artificial Intelligence (AI), Application Development, Robotic Process Automation (RPA), DevOps, Enterprise Mobility, Test Automation, and the design and operation of Global Capability Centers (GCCs).

Guided by our higher purpose of **Simplifying Success**, we partner with organizations to drive scalable growth, operational excellence, and meaningful business transformation. Our approach is grounded in a deep understanding of our clients' challenges and aspirations, ensuring that the solutions we deliver are not only technologically advanced but also thoughtfully tailored to real-world business needs.

Headquartered in Denver, Colorado, with a wholly owned delivery center in Bengaluru, India, Optteamix combines global reach with personalized service. We bring together engineering excellence, a culture of continuous innovation, and an unwavering commitment to **"Client Delight through Employee Happiness."** At the heart of everything we do is our belief that technology should empower people, whether they're employees, clients, or end beneficiaries of the solutions we deliver.

Comply360.AI is a ready-to-deploy solution from Optteamix, built on our deep expertise in AI, regulatory compliance, and enterprise-grade software engineering.
