

Reimagine Growth with Opteamix's AI-Powered GCC

Unlock Innovation!
Accelerate Transformation!
Future-Proof Your Enterprise!

Global Capability Centers (GCCs) are evolving from traditional offshore delivery units into AI-powered innovation hubs — becoming strategic extensions of forward-thinking enterprises. Today's GCCs are no longer about just cost arbitrage — they are engines of accelerated innovation, business transformation, and sustainable competitive advantage.

These next-generation GCCs leverage AI technologies like Generative AI (GenAI), Natural Language Processing (NLP), and Machine Learning (ML) to not only optimize operations but also create competitive advantages through accelerated R&D, predictive analytics, and intelligent automation solutions that reimagine how businesses operate.

Strategic Advantages of Opteamix's AI-Powered GCCs

- ◆ Access specialized talent such as data scientists, ML engineers, and AI specialists across experience levels in addition to traditional talent.
- ◆ Accelerated innovation by creating a dedicated space for AI research, customer experience, etc.
- ◆ Transform operational efficiency by achieving cost reduction while multiplying productivity through AI augmentation.

Our Services

Services strategically designed to unleash the full potential of your AI-powered GCC

GCC Consulting

Architect AI-ready GCCs tailored to your business goals, leveraging advanced market analysis, strategic location selection, and future-proof operational frameworks.

Operate and Optimize GCCs

Transform traditional delivery centers into AI-enhanced innovation hubs with intelligent workflows, predictive analytics, and self-optimizing operational models.

Talent Management & Scaling

Build high-performing global teams by integrating AI-powered recruitment, personalized skill development, and intelligent knowledge ecosystems.

Functions That We Can Deliver From GCCs

We leverage AI to power specialized technical services while also using these technologies to transform traditional enterprise support services and industry-specific business processes, creating end-to-end intelligent operations.

Technology Services

- Software Development
- QA Engineering
- Database Management
- DevOps Services
- Cloud Engineering
- UI/UX Development
- API Development
- System Integration

Business Focused Services

- Accounting and Finance
- HR and Recruitment
- Administration
- Legal and Compliance
- Travel Desk
- Marketing Operations
- Sales Support
- Proposal Development

Industry Focus

- Product Companies
- Banks
- Financial Services
- Insurance
- Retail
- Oil Gas and Utilities
- Media
- Ed Tech

All services above can be enhanced through AI integration and are customized according to your specific business requirements and industry sector dynamics

The Opteamix GCC Advantage

At Opteamix, we are pioneering the concept of AI-powered GCCs that create measurable business value and sustainable transformation. With over 25 years of global delivery expertise, we bring:

- ◆ Zero upfront investment GCC models with accelerated ROI
- ◆ 90-day operational readiness with AI-powered frameworks
- ◆ Culturally aligned teams integrated into your enterprise DNA
- ◆ AI-driven innovation that delivers real-world outcomes
- ◆ Robust security, governance, and compliance built-in
- ◆ End-to-end strategic partnership — from blueprinting to optimization

Flexible Engagement Models

Opteamix offers flexible GCC models tailored to your business maturity, business transformation journey, innovation appetite, and strategic objectives.

Private GCCs (Build – Optimize – Transition)

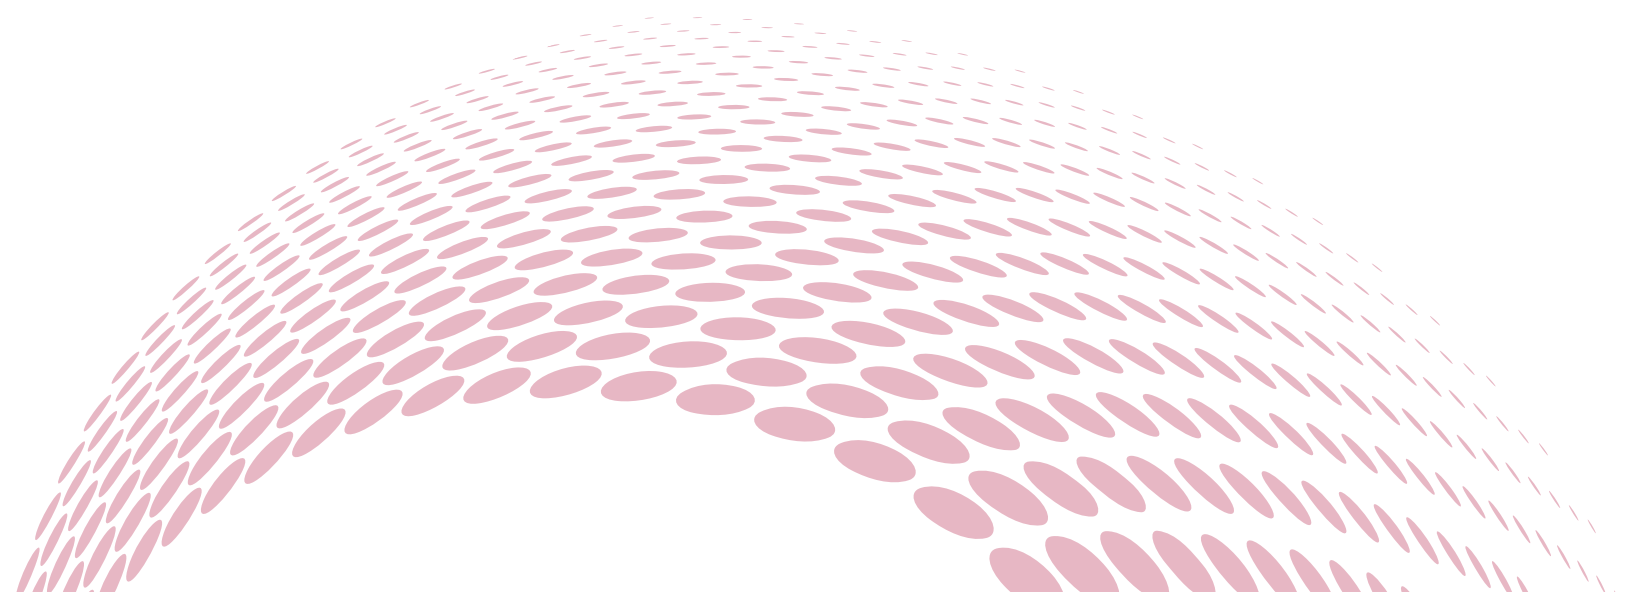

Launch with zero upfront investment and transition to full ownership over three years.

Accelerated GCCs (Day-One Ownership)

Gain immediate control of your GCC with expert-led setup and strategic support.

Micro GCCs (Global Teams, Managed Services)

Deploy flexible, AI-powered global teams with minimal investment and future ownership options

Success Story: GCCs for a Health and Human Services Client

Client Challenge: A \$5B global healthcare solutions provider needed to establish a scalable GCC to support growth and overcome challenges with legacy systems.

Opteamix Solution: Implemented a Build-Operate-Transfer model with services spanning product development, application modernization, quality engineering, and specialized support functions.

Value Delivered:

- ◆ 60% reduction in operational costs
- ◆ 50% increase in project delivery speed
- ◆ Enhanced innovation with a "Follow the Sun" model
- ◆ Seamless cultural integration with 100% retention of key personnel

"Partnering with Opteamix to establish our GCC in India has been a game-changer. Their commitment to our cultural values resulted in a seamless integration and a thriving hub of innovation."

SVP of Outsourcing

A decorative pattern at the bottom of the slide consisting of many overlapping, light blue circles of varying sizes, creating a sense of depth and movement.

Opteamix is an AI-powered technology services company that helps businesses unlock their full potential through intelligent, human-centric solutions. Our core expertise encompasses Artificial Intelligence (AI), Application Development, Robotic Process Automation (RPA), DevOps, Enterprise Mobility, Test Automation, and the design and operation of Global Capability Centers (GCCs).

Guided by our higher purpose of "Simplifying Success," we partner with organizations to drive scalable growth, operational excellence, and meaningful business transformation. Our approach is grounded in a deep understanding of our client's challenges and aspirations, ensuring that the solutions we deliver are not only technologically advanced but also thoughtfully tailored to real-world business needs.

Headquartered in Denver, Colorado, with a wholly owned delivery center in Bengaluru, India, Opteamix combines global reach with personalized service. We bring together engineering excellence, a culture of continuous innovation, and an unwavering commitment to "Client Delight through Employee Happiness." At the heart of everything we do is our belief that technology should empower people, whether they're employees, clients, or end beneficiaries of the solutions we deliver.
